

## Episode 7.3 Show Notes

Title: The 1st Seven Days: Finding a new normal: How to talk to your family about your lung cancer diagnosis & Using the Internet wisely

Date: May 2020

Brief description: More so than ever, today it is possible to live a long and productive life with lung cancer. Finding a new normal involves finding support from and for your family, and learning as much as you can about your diagnosis and treatment options. In this final episode of a 3-part series of the Hope With Answers: Living With Lung Cancer podcast called The 1st Seven Days, you'll get advice from lung cancer expert Dr. David Carbone of The Ohio State University on where to find the best information about lung cancer online and hear a group of people living with lung cancer about what helped their own families come to terms with their lung cancer diagnosis.

A Block Guest: Dr. David Carbone

- Starting timecode: 00:00

B Block Guests: Members of the LCFA Speakers Bureau

- Starting timecode: 10:44

- Speaker bio: The LCFA Speakers Bureau is a group of people living with lung cancer who are working to raise awareness of the need for better methods of lung cancer diagnosis and treatment and the need for increased research funding.

● LCFA's mission is the improvement in survivorship of lung cancer patients through the funding of transformative science.

While raising funds to support lung cancer research, LCFA will raise the public's awareness and serve as a resource for patients or anyone seeking answers, hope, and access to updated treatment information, scientific investigation, and clinical trials.

You can also join the conversation with LCFA on [Facebook](#), [Twitter](#), and [Instagram](#).
